2. Special presentations –
   11/13/2004 – Tony Mollica to chat about Garwood and Dodge boats. Tony has written books on both boats which will be available for sale!
   1/15/2005 – Guest speaker to be announced
   2/12/2005 – Guest speaker to be announced
3. Socialize with fellow enthusiasts
4. Eats, drinks, and snacks

---

## !SPECIAL—SPECIAL—SPECIAL!

We are offering a 10% discount off of our normal shop rates and materials for the first three customers who contact us about doing a bottom job on their boat.

A well-done "Smith/3M5200" bottom will increase your enjoyment using your boat ("look mom; there is no water in the bilge!!")

A new, properly installed, bottom will increase the value of your boat by approximately the cost to install the bottom. Consider the installation of a new bottom as an investment, not an expense!!

---

As you might suspect, we see many boats in varying condition and with varying problems. Pictured below is a 1956 20' Century Coronado that was involved in an accident on the highway. This boat and trailer "popped off" of the hitch and ran into a tree. Fortunately no one was hurt. Notice the hook on the safety chain. Our purpose in bringing this to your attention is three fold:

1. When attaching boat/trailer to your car, be sure that the "claw" is under the ball.
2. Check your safety chains and spend $20.00 for a good strong set!!
3. Check your amount of insurance. Highway exposures can be total losses.
