BOAT OF THE MONTH

2005 23' Fish Brothers Barrel Back

Asking price $74,645.00

This is a fast good-looking boat that is easy to own. Triple planked bottom and double planked sides, decks, and transom all Wested together. These boats are spectacular and provide the driver excellent sight of vision on the water.

**Additional pictures below*

The above boat is in our showroom for your personal inspection.

SPRING/SUMMER ACTIVITIES

CENTURY BOAT CLUB SPRING/WINTER 2005 METTING – April 16th

The meeting is being held at our facility. This will be a full day of talks, presentations, and good fellowship. This event is open to all!!!

MARINER'S MUSEUM, NEWPORT NEWS, VA, SYMPOSIUM - April 22nd, 23rd, & 24th

This is a unique opportunity to visit one of the finest marine museums in the country, along with guest speakers representing some of the more knowledgeable people in our hobby. This museum houses the complete corporate records of the Chris Craft Company, so bring your Chris Craft hull number and do some research. Our president/founder, Lou Rauh, will be one of the guest speakers at this event.

Mt. Dora

Our sales staff has recently returned from Mt. Dora to visit with our many friends and some nice 70-degree weather. If you haven't been to this show, you are missing one of the finest antique boat shows in the country. Next year the show is the last weekend in March (23rd, 24th, & 26th). This show attracts around 50,000 visitors!!

It's been a long winter in the Midwest, but the temperature is beginning to rise along with the spring flowers.

Hints for your first springtime launch:

1. If you boat needs swelling, now is the time to start introducing water – there are many methods that is a topic unto itself.
2. Make sure the battery is fully charged with connectors clean and tight
3. Check to see if all engine drain plugs are secure.
4. Check oil level
5. Run engine with water in your garage/barn/storage building.
6. Check out gauges and water output from exhaust.
7. Make sure drain plug is in bottom of boat.
8. Take boat to the lake on a weekday afternoon rather than weekend.
9. Don't take your wife/girl friend on this initial voyage. Take a "buddy"!!

The Pro-Flushional inboard engine flusher

This is what we use to run the inboard engines in our shop. The flusher attaches to the water intake on the hull. Locks tight against the hull and will not fall off when climbing in and out of the boat.

Price is $30.95 and is available for purchase in our on-line store by clicking here!!
