BOAT OF THE MONTH 1950 19' Chris Craft Racing Runabout

Our feature boat this month is hull number R19-298 a 1950 Chris Craft Racing Runabout. Early 'Racers' were done in a beautiful red and white while later boats were mahogany. According to the seller this boat was restored by Van Dam Boatworks and is SPECTACULAR! It features MBL power and a very serviceable single axle trailer. It is located in our showroom and is part of our 'Water Ready Program'.

The asking price is \$72,900 including the trailer.

Cincinnati Travel, Sport & Boat Show January 20-29

We would like to thank everybody who stopped by our booth at the Cincinnati Travel Sport and Boat Show! The show was very busy. We were glad to see old friends and make a host of new ones!

Open Houses

February 18th – Charles Mistele has owned the original 1930 Garwood “Miss America IX” for 42 years, and will speak of life with a living legend.

In 1931, “Miss America IX” became the first boat to exceed 100 MPH topping out at 102.256 MPH!

We would like to thank Thomas Holmes for his fantastic presentation about history on the Century Boat Company. It is always great to have Thomas here answering questions throughout the day. It was a great crowd on an icy Saturday. Fun, friendly folks that we hope to see at our next open house!

2011-2012 Refinishing/Mechanical Winter Classes

This winter our classes were on refinishing. We stripped and refinished the sides on a 1953 17' Chris Craft Sportsman and the decks on a 1956 15' Lyman outboard. The class participants learned how to remove the existing finish, sand the hull sides and decks. They also learned how to bleach and stain. Then they learned, through hands experience, how to varnish the boat.

ACBS Restoration Symposium/Workshop

**Antique Boat Center
Cincinnati, Ohio
March 10th-11th 2012**

LOCATION: [The Antique Boat Center -- Cincinnati, Ohio](#)

DATE: March 10 & 11, 2012 (Saturday and Sunday to noon)

SUBJECTS: Laminating new decks. An alternative planking techniques to eliminate seam separation. How to remove broken fasteners. Use of epoxy to repair split planks. Making new planks and then fastening them in place. Removing old deck seam material. Fairing the hull sides with power and by hand. Bleaching, staining and varnishing. The repairs of splits in the deck planks, gouges in the side planks and checks in the varnish. Filling in and painting the deck seams. General engine maintenance. Finishing up with how to inspect a boat for purchase.

Everyone who attended the workshop at the Antique Boat Center last year said it was the best they ever attended. A lot of hands on experience with great instructors.

INSTRUCTORS: Joel Terbrueggen and his staff
